**Paper Revision ISAINI 2021** [External] [Inbox x]

ISAINI ISAINI -isaini@ugm.ac.id  
to me, Muhlisin

Wed, Aug 25, 2021, 2:13 PM

Dear Authors,

On behalf of the 6th International Seminar on Animal Nutrition and Feed Science (ISAINI), We would like to appreciate and thank you for your participation in this Seminar, which was conducted successfully on July 7-8, 2021.

Right after the closing ceremony of the 6th ISAINI, the committee started to proceed with your manuscript/paper by continuing deep review and layout by the scientific committee. By this email, we are happy to inform you that the process had finished and we ask the author to revise the manuscript, with the instruction as follow:

1. Please revise your manuscript according to the reviewers and/or Editors. Some papers had been reviewed by more than 1 reviewer but some only by the editor (reviewer of this manuscript had accepted the manuscript without revision). We attached all those files to this email.
2. We did the plagiarism check with Turnitin for all manuscripts and We attached the results to this email as well. Authors are asked to revise the manuscript by taking into account the plagiarism results to reduce the similarity index. For Authors who did not receive the plagiarism results on this email, it means that your paper is considered as low for the plagiarism check.
3. Authors must revise the paper directly on the file attached to this email (Filename: XX-XXX-ED) and rename the revised version of your paper by the file name: XX-XXX-RV1. The author is asked to do careful revision without affecting the layout of the paper.
4. Authors are asked to send the revised version of the manuscript by Friday 26 August 2021 by replying to this email.
5. Please fill and sign the Author Declaration Statement attached to this email and send it back to us in the same email with your revised manuscript.
6. If You have any further concerns please feel free to contact our Editorial Boards: Dr. Muhlisin, Phone: 082138209900.

After the authors revised the manuscripts, the Editor will check the revised version. Further communication might be needed to make sure that the revision conducted by the authors meets the requirements of the reviewers, editors, and Publisher.

Thank you very much for your cooperation.

Best Regards,

Dr. Muhlisin
