Paper Title: **Application of Calcium Hydroxide with Vehicles Relate to The pH Change, Calcium Ion Diffusion, Roughness, and Frequency of Chemical Compound in Root Canal**

Authors: **Dwi Yani Sastika; Trimurni Abidin; Harry Agusnar, 2 Basri A. Gani3;**

Dear Author(s),

Thanks for submission of paper at enlisted journals of 'A & V Publications'. In the manuscript, reviewers has found some revisions. Therefore, we are requested you to kindly go through the comments of the reviewers and revise your article as needed.

Note:- Please resubmit the revised article after corrections with in 7 Days.

Please Login to your account from which you have submitted the article for more details.

Dear Author(s),

Thanks for submission of paper at enlisted journals of 'A & V Publications'. In the manuscript, it is compulsory to cite references of the related articles from journals of A&V Publications. Therefore, we are requested you to kindly cite / refers at least ten published manuscript from the enlisted journals. The link of published articles is embedded at the bottom of this mail, which you would to click and select any ten manuscripts as applicable to the submitted manuscript.

After citing the related articles, please resubmit the revised manuscript at article submission portal within 7 days.

Dear Author(s),

Thanks for submission of your article. You have following comments from Dharli Syafriza for your submitted article titled "**Application of Calcium Hydroxide with Vehicles Relate to The pH Change, Calcium Ion Diffusion, Roughness, and Frequency of Chemical Compound in Root Canal**"

Date: DD-Aug-YYYY, 09:19 PM

COMMENTS:

In general, this research topic is good for the possibility of applying chitosan in dentistry,

Status article: Accept with revision

Comments:

1. It is necessary to explain the relationship between the release of calcium ions and changes in pH so that.
2. the possibility of using it in root canals is very appropriate. It is necessary to add a reference to the role of chitosan in maintaining the roughness of the root canal walls associated with the release of calcium ions, as shown in Figure 2.
